Notable Endorsement

"I commend the Humanity 101 effort by **Project Humanities** at Arizona State University as it is an admirable effort to promote fundamental human values such as kindness, compassion, etc. among educators and students. These human values, which are part of what I call secular ethics, have the capacity to make our lives happier. I hope the initiative will be able to reach to the widest number of communities and people."

-His Holiness the 14th Dalai Lama
